

| Test ID | Function       | Exp I/P     | Exp O/P     | Actual Output | Type of Test |
|---------|----------------|-------------|-------------|---------------|--------------|
| L_01    | addition       | Int value   | Int output  | Int output    | Unit test    |
| L_02    | addition       | Float value | Termination | Termination   | Unit test    |
| L_03    | subtraction    | Int value   | Int output  | Int output    | Unit test    |
| L_04    | subtraction    | Float value | Termination | Termination   | Unit test    |
| L_05    | multiplication | Int value   | Int output  | Int output    | Unit test    |
| L_06    | multiplication | Float value | Termination | Termination   | Unit test    |
| L_07    | division       | Int value   | Int output  | Int output    | Unit test    |
| L_08    | division       | Float value | Termination | Termination   | Unit test    |
| L_09    | power          | Int value   | Int output  | Int output    | Unit test    |
| L_10    | power          | Float value | Termination | Termination   | Unit test    |
| L_11    | modules        | Int value   | Int output  | Int output    | Unit test    |
| L_12    | modulus        | Float value | Termination | Termination   | Unit test    |
| L_13    | factorial      | Int value   | Int output  | Int output    | Unit test    |
| L_14    | factorial      | Float value | Termination | Termination   | Unit test    |
